

Automated DNA/RNA Extraction

Upgrade the CyBio FeliX liquid handling platform to a reliable high-throughput extraction robot

Your benefits:

- Magnetic Bead based Extraction and SmartExtraction technology - independent of your starting material
- Save time: Simple procedure, easy to automate
- Get better quality: Optimized pipetting steps for maximum purity of eluted nucleic acids
- Suitable as well for other laboratory routine work

CyBio FeliX platform for liquid handling and automated nucleic acid extraction

Wide variety of extraction kits with included consumables

Benefit from an automated and ready-to-use extraction solution with high yields, maximum purity and minimum hands on time.

Perfectly suited as well for:

- Genetic engineering
- Automated PCR and qPCR
- Sample preparation
- Cellular application

Product	Order number	Product details/items delivered
CyBio FeliX Basic Unit with Enclosure	OL5015-24-100	CyBio FeliX Basic unit with enclosure, excluding pipetting head, liquid handling adapters and PC, including software CyBio Composer
CyBio FeliX Extraction Set	OL5015-25-120	<p>Accessory set for nucleic acid isolation using CyBio FeliX and automated nucleic acid extraction kits of Analytik Jena</p> <p>The set includes Application Studio CyBio FeliX eXtract with ready-to-use scripts and the following hardware components:</p> <ul style="list-style-type: none"> ▪ 1x CyBio Head R 96/1000 µl, incl. Cover Magazin ▪ 3x 96-Channel Magazin; Head R 96/1000 µl ▪ 3x Support; 97 mm height ▪ 1x 8-Channel Adapter; Head R 96/1000 µl, incl. Support (37mm height) ▪ 1x CyBio FeliX Gripper, incl. Support (37mm height) ▪ 1x Magnetadapter Magnum FLX Enhanced ▪ 1x BioShake 3000-T elm, incl. Adapter for deep well plates ▪ 1x Waste Box ▪ 1x Tip Transfer Tool 96/1000 µl ▪ 1x Tip rack 96/1000 µl ▪ Control accessories (cable, USB hub, adapter)
Laptop - English operation system	820-90002-2	Notebook with connection cables and operation system

Your benefits

- Comprehensive kits containing all required chemicals and plastics
- Broad portfolio of starting materials, like tissue, virus, plant and others

Extraction kit	Pre-filled plastics	Order number	Quantity
smart DNA prep (a96) - FX	No	845-FX-4096096	96 reactions
	No	845-FX-4096480	5 x 96 reactions
	Yes	845-PFX-4096096	96 reactions
smart Blood DNA Midi prep (a96) - FX	No	845-FX-4196096	96 reactions
	No	845-FX-4196480	5 x 96 reactions
	Yes	845-PFX-4196096	96 reactions
smart Blood DNA Midi Direct prep (a96) - FX	No	845-FX-4296096	96 reactions
	No	845-FX-4296480	5 x 96 reactions
	Yes	845-PFX-4296096	96 reactions
smart Plant DNA prep (a96) - FX	No	845-FX-4396096	96 reactions
